Notice of Intent
154 Prospect Street, Acton

2005 Mass GIS Orthophoto with approximate site area shown by red lines.

The existing home at 154 Prospect Street is in poor condition and does not conform to the Town's zoning setbacks. It is the desire of the perspective buyers, Aaron Jeanson and Christopher Carroll, to remove the existing home and construct a new single family home.

The site consists of two parcels of land containing approximately 28,100 square feet. The proposed new single family home will occupy both parcels and conform to zoning setbacks. The eastern side of the parcels is the high point of the site. The western lot line is marked by a stone wall which is bordered by a wetland.

Soil tests and auger samples were conducted along the edge of the wetland to determine its extent. Hydric soils were found to extend into the lot in the southern corner of the property.

The proposed home is to be connected to the sewer system and a portion of the house and associated grading will extend into the 100 foot buffer zone. Erosion control measures will be in place during the demolition of the existing house and construction of the new home. Enclosed is the Notice of Intent Plan dated June 18, 2007 detailing the limit of work and erosion control measures.
